FILLING

Wachsfabrik Segeberg realises with extensive production possibilities the filling of your products.

PACKAGING

Wachsfabrik Segeberg realises customised packaging solutions.

WHY WFS?

With us, you are in good hands.

Benefit from tailor-made solutions from a family-run company with long-standing experience, high expertise and employees with routine. Your success is at the centre of our daily work, that is what we

have been standing for since more than 65 years. As a modern family-run industrial company, we focus on the development and co-design of your innovative ideas and products. At the same time, we are able to react quickly, flexibly and precise-

ly to changing requirements and always devote our full attention to you when implementing your needs. In the sector of contract services for the **DEVELOPMENT, MANUFACTURING, FILLING and**

PACKAGING of chemical-technical and cosmetic products, we offer you everything from the initial idea to the finished product - all from one source.

REALISING INNOVATIVE IDEAS

We offer you the opportunity to turn new and innovative ideas into reality.

Our many years of experience and high competence in problem solving enable us to realise your special requests and wishes. Our chemical-technical development department develops your new products and recipes or improves your existing recipes according to your wishes.

During this process, our highly qualified employees are at your side with their expert knowledge and develop solutions in constant dialogue with you.

On request, we can also prepare a technical data sheet and a safety data sheet for you.

Feel free to tell us your wishes and requirements.

PRODUCT DEVELOPMENT

Due to our active innovation management and our experience in the field of cosmetic products, we are able to create our own recipes. We apply the gained knowledge for you and develop / modify formulations for a tailor-made result.

PRODUCT CLASSIFICATION SERVICE

We offer you our advice and thus the possibility to classify and evaluate your products according to the legal frameworks. This includes the preparation of safety reports for your product. This includes the evaluation of all raw materials and a health safety examination.

DOCUMENT AND QUALITY SERVICE

For many products, documents and proof of quality are essential. For this reason, together with our partners, we prepare comprehensive safety data sheets, certificates of analysis, microbiological tests and laboratory tests.

PACKAGING / DESIGN

We support you with the selection of suitable packaging, the choice of containers and their design. Together with our partners, we would be happy to organise the digital editing of your photo material for your product placement.

MANUFACTURING INNOVATIVE PRODUCTS

We offer you the manufacture of your products.

With our production technology, we are able to meet almost all requirements and have appropriate production facilities for the manufacture of:

Wax-based products, alcohol-based products, pastes, creams, lotions, among others

Take advantage of our expertise in the manufacture of a wide range of products.

You decide whether we procure the raw materials for you according to the strictest quality and delivery time criteria or whether you provide your raw materials for production. Together we will find the most cost-efficient solution.

BATCH HEATING

In several boiler plants up to 1200kg/batch, we are able to carry out hot mixtures with a maximum temperature of 150°C and subsequently to make up various types of packaging. We have extensive production experience in the manufacture of hair pomades, for example.

COLD MIXING

In our cold mixing facilities, we can process water and oil-based mixtures into pastes and care products. Especially in the skin care, hair care and body care sector we have extensive production know-how.

FILLING AT WFS

We offer you the filling of your products.

With our production technology, we are able to meet almost all requirements and have appropriate filling facilities for:

Tubes, bottles, cans, jars, canisters, barrels, pails, containers (including IBCs)

Take advantage of our expertise in the filling of a wide variety of products.

We react quickly, flexibly and precisely to changing requirements with well-organised processing times and reliable scheduling.

HOT AND WARM FILLING

At WFS you have the possibility to have high-viscosity products filled. These may for example be hot hair care products in tins or warm water and vaseline-based creams in tubes.

LIQUID FILLING

Our extensive filling equipment enables us to realise everything from simple manual filling to fully automatic machine filling, depending on the order size. We can fill up to 40,000 containers per week. For larger quantities, we will gladly find a suitable solution.

PASTE FILLING

The filling of creams, especially in tubes and jars, is one of our main areas of expertise. Whether tube, jar or can, we bring the cream into the unit of your imagination.

TAILOR-MADE PACKAGING

We offer you the packaging of your product.

With our packaging options we will find the right solution for you:

Tubes, bottles, cans, jars, canisters, barrels, pails, containers (including IBCs)

Take advantage of our expertise in the packaging of a wide variety of products.

We always keep various packaging materials in stock and can therefore react quickly to the most diverse requirements.

TRANSPORT PACKAGING

Every product processed at the WFS must be prepared for dispatch. We would be happy to advise you on the selection of a suitable outer carton and on optimising shipping costs. Of course, you can also give us your desired packaging or provide it.

SET ASSEMBLY

Often it is not enough to put the finished product into a carton. We will be happy to put your products in coordinated sets or in a folding box with the addition of, for example, a sprayer or pipette.

COMMISSION STORE

With extensive storage capacities we can offer you the storage of your products until the respective dispatch. The goods are in your possession and will be shipped by us with your order to the agreed customer warehouse.

PRIVATE LABELLING

We will be happy to provide products developed by us on your behalf with your label. You can decide whether the label shall be created and procured by us or provided by you.

PRODUCTS AT A GLANCE

We offer you a wide range of production possibilities with even more products.

Here we have compiled some examples for you. Our portfolio is constantly expanding. Please have a look at our products. Together with you we will find a tailor-made solution.

- Hair pomades
- Creams
- Lotions
